

Market stall 35x20 profile h757_35

Inclined aluminum market stall for fruit crates, with 35x20 profile. Dimensions: W 150 x D 120 x H inclined top foot 70 and H lower top foot 63 cm.

The **H757_35 market stall** has been designed to offer **maximum display capacity with minimum footprint**, making it ideal for street vendors, greengrocers, and traders operating in markets, fairs, and tight spaces.

Made of **reinforced 35x20 mm aluminum profile**, with **50 mm oval tubes** and a **special profile edge**, this stall combines **structural strength and lightness**, while ensuring **ease of transport, stability, and durability over time**.

The **reinforced hinges** are designed for professional and repeated use, ensuring a long service life even under intensive use conditions.

The stall is **assembled using bolts** and features **die-cast aluminum rounded safety corners**, which improve safety during daily operations.

The **special insert profile** further reinforces the structure, allowing for **uniform load distribution**.

Thanks to its **double display surface**, the H757_35 model is perfect for holding **Euro-format fruit crates** on two levels: **upper inclined top** 120 x 150 cm with a height of 70 cm and **lower top** 80 x 150 cm with a height of 63 cm.

This inclined configuration optimizes **product visibility** and improves the shopping experience, while keeping the footprint reduced and facilitating space management.

Choose the **H757_35 stall**: double display top, reinforced structure, minimum footprint. Contact us for a personalized quote for multiple supplies!
