

Market stall for fruit sales h757_16

Market stall for fruit and vegetables with steel structure, robust top and stable legs. Top dimensions: 100 x 120 cm. Load capacity: 65 kg/m². Profile: 35x20.

The **market stall for fruit sales h757_16** is designed to ensure stability, safety and resistance during the display of fruit, vegetables and flowers. The structure is made with a **35x20 profile, 50 mm oval tubes** and a **10 mm round tube** for solid and lasting support. The **independent front feet** and the **98° angle opening of the legs** ensure superior stability even with heavy loads.

This stall features **safety rounded corners in die-cast aluminum**, which protect operators from potential accidents. The structure is assembled using **bolts**, ensuring robustness and reliability over time. The loading surface measures **100 x 120 cm**, ideal for a wide display of fresh products. With a maximum load capacity of **65 kg/m²**, it is suitable for supporting significant weights without deforming.

Thanks to its **edge**, products remain stable on the surface, preventing accidental falls. This stall is a perfect solution for markets, fairs and greengrocer shops that require reliability and durability over time.

Improve your display space with the **h757_16 market stall**! Rely on a robust and professional solution to display your products with safety and stability. **Order now and optimize your market!**

Technical features:

- **Rear foot height:** 86.5 cm
- **98° angle leg opening**
- **Structure profile:** 35x20 mm
- **Oval tubes:** Ø 50 mm
- **Round tube:** Ø 10 mm
- **Assembly:** with bolts
- **Corners:** rounded in die-cast aluminum
- **Load capacity:** 65 kg/m²
- **Reinforced hinges**
- **Recyclable:** Yes

User benefits:

- **Excellent stability:** Legs with a 98° opening angle for superior stability.
- **Optimal safety:** Safety rounded corners to protect operators.
- **Large load capacity:** 65 kg/m² capacity to display fruit and vegetables in large quantities.
- **Functional design:** Solid structure with a special edge to prevent products from falling.
- **Durability over time:** Robust materials and bolt assembly guarantee resistance to wear and tear.

FAQ:

1. **What are the dimensions of the loading surface?**

The top measures 100 x 120 cm, offering a wide surface for display.

2. **Is this stall suitable for outdoor use?**

Yes, it is ideal for use in covered outdoor environments thanks to its resistant structure.

3. **Is the stall easy to maintain?**

Yes, the surface is easy to clean and requires minimal maintenance.

4. **What materials is the stall made of?**

It is made with a 35x20 steel profile, 50 mm oval tubes and a 10 mm round tube.

5. **Can it support heavy loads?**

Yes, it has a maximum load capacity of 65 kg/m², ideal for displaying fruit, vegetables and flowers.

Mini buying guide:

The **h757_16 market stall** is an excellent choice for those looking for a stable, functional and safe solution for displaying fruit, vegetables and flowers. Thanks to its robust structure made with a **35x20 steel profile**, this stall is designed to withstand daily use in markets, fairs and greengrocer shops. The 2 independent front legs and the **98° angle leg opening** offer superior stability, making it suitable even for outdoor displays under covers.

The **100 x 120 cm loading surface** offers a wide and well-structured area to present a large quantity of products. The **65 kg/m² load capacity** allows for displaying fruit and vegetables without worrying about overloading. The **edge** helps keep products in place, preventing accidental falls and ensuring an orderly and safe display.

The **safety rounded corners** in die-cast aluminum are an added value to ensure the safety of operators, especially in crowded environments where it is essential to avoid dangerous edges. The bolt assembly ensures a solid and lasting construction, allowing the stall to be disassembled and reassembled with ease if necessary.

This stall is also **recyclable**, representing a sustainable choice for those who wish to respect the environment without sacrificing quality. It is ideal for those who manage fruit and vegetable markets, trade fair events or specialized shops, offering a display solution that combines practicality, durability and safety.

Choose the **h757_16 market stall** for a professional and efficient setup that will accompany you for a long time. Thanks to its solid structure and high load capacity, it is perfect for meeting the most complex display needs, maintaining an orderly and professional appearance.
