

Market stall table h. 80 cm h757_19

Technical bench for street vendors, with reinforced structure and provision for extensions. Dimensions: W 200 x D 80 x H 80 cm.

The **H757_19 market stall table** is a professional technical bench, designed to offer a **resistant, stable and safe support surface**, ideal for daily use at markets, fairs and itinerant events. Thanks to its solid structure and generous dimensions of **200 x 80 cm**, it allows for convenient display and management of goods.

It is made with a **30 x 18 mm metal profile** and **40 x 10 mm oval tubes**, with a **reinforced hinge** that ensures greater robustness. Assembly is done via **bolts**, without the use of fiberglass, to guarantee a clean and durable structure.

The table is equipped with **safety rounded corners**, which increase safety during use in public environments. The **special profile with insert** adds stability to the structure. Each leg is also equipped with a **provision for extensions**, offering the possibility to further extend the surface or modify the setup according to necessity.

The table is supplied **complete with provision for extensions**, ready for use in modular configurations.

Choose a professional and safe bench for your street vending work. Order the **H757_19 market stall table** now or request a quote for multiple supplies.
