

Market stall umbrella with resin-coated fabric h757_49

Professional umbrella h757_49 for street vendors (320 x 440 cm). Equipped with resin-coated acrylic fabric for superior protection against rain, it combines practicality and resistance at affordable costs.

The **market stall umbrella h757_49** is the ideal solution for those seeking reliable and versatile shelter for their daily business. This model stands out for its use of a **resin-coated acrylic fabric**, which offers superior water resistance compared to standard cotton versions, while maintaining excellent maneuverability. With a surface area of 320 x 440 cm, it guarantees wide coverage for medium to large display counters. The structure is solid and essential, with a 55 mm pole and a single-pulley opening system. *Note: The fabric color is subject to stock availability (examples in the photos); please check and confirm the actual color during the ordering phase.*
