

Market table h. 63 cm h757_21

Technical market table, reinforced structure and set up for extensions. Dimensions: W 200 x D 100 x H 63 cm.

The **market table H757_21 h. 63 cm** is a technical bench designed to offer **maximum practicality and resistance** during sales activities in markets, fairs, and temporary events. With a solid and durable structure, it proves to be the ideal choice for street vendors, intended for intensive professional use.

Made with a **30x18 mm aluminum profile** and **40x10 mm oval tubes**, this bench guarantees **great stability and resistance to deformation**, even under heavy loads. The assembly system uses bolts, a solution that ensures **secure fastening and long-term reliability**.

The table is equipped with a **reinforced hinge**, designed to support repeated opening and closing cycles, thus ensuring a long product life even in conditions of daily use.

A further advantage is the presence of **rounded safety corners**, designed to increase operator safety and prevent accidental impacts during setup. The structure includes a **special insert profile**, which provides greater strength and facilitates precise component insertion.

The table is supplied **ready for extensions** directly integrated into the legs, allowing for a possible extension of the support surface, useful in contexts where more display space is needed. The **maneuverability** of the product makes it perfect for those who need a **functional technical bench, easy to transport and quick to install**.

Order the **market table H757_21** now or request a personalized quote for multiple supplies! Rely on a professional structure, designed to last.

FAQ:

1. **Is the table supplied with extensions?**

No, extensions are not included, but the table is ready for them to be added.

2. **What are its dimensions?**

Its dimensions are W 200 x D 100 x H 63 cm.

3. **Is it suitable for outdoor use?**

Yes, it has been specifically designed for markets, fairs, and outdoor environments.

4. **What material is it made of?**

The table is made of profiled aluminum, which guarantees stability and durability.

5. **What is the height of the support surface?**

The height is 63 cm, ideal for display and direct sales.

Mini buying guide:

If you operate in the street vending sector or are organizing a trade fair event, choosing the right table is crucial.

A technical bench like the H757_21 model stands out for its **structural robustness**, its **optimal height for display (63 cm)**, and the possibility of being extended via extensions.

The **aluminum** structure guarantees **resistance to wear** and the rounded corner system prevents potential injuries.

If you are looking for a product that is **manageable, safe, and professional**, this model is a reliable choice, especially for frequent use in outdoor environments.

Professional market table, h63 table for stalls, technical fair bench, sturdy outdoor table, table ready for extensions, street furniture for vendors.
