

Termigea anti-decubitus hollow fiber mattress with 6 elements h23007

Siliconized hollow fiber mattress with six removable elements. 100% cotton washable outer cover. Dimensions: W.85 x L.195 x H.13. Maximum weight capacity: 90 Kg.

Anti-decubitus mattress in **siliconized hollow fiber** ideal for preventing pressure sores in long-term bedridden and post-operative patients. The anti-decubitus mattress consists of a **washable 100% cotton cover** with zippers and six compartments in which the six TNT cylinders containing siliconized hollow fiber are inserted. The six **removable cylinders** facilitate mattress maintenance and the fiber structure allows the passage of air and therefore excellent breathability of the skin.
