

Termigea anti-decubitus mattress in expanded polyurethane h23009

Waffle-cut and perforated mattress made of high resilience polyurethane. Maximum capacity: 120 Kg. Dimensions: W.85 x L.195 x H.14 cm.

Ventilated anti-decubitus mattress suitable for preventing or treating lesions resulting from long stays in bed; **made with quality material.**

Supporting structure in high-resistance polyurethane with density 30 and waffle-cut support layer made of viscoelastic with density 45. The particular structure of the mattress ensures effective air circulation between the mattress and the patient.

Technical features:

- Material: high resilience polyurethane with density 30
- Dimensions: W.85 x L.195 x h.14 cm
- Maximum capacity: 120 Kg
- Cover not included

INFORMATION

- **warranty** 1 anno
- **Depth** 14 cm
- **Width** 85 cm
- **length** 195 cm
- **Type** in poliuretano espanso
