

## Polyurethane foam mattress h20632

Ventilated PU mattress, 3-sectioned, density 30 Kg/m<sup>3</sup>. Fireproof Dimensions: cm 195x85x14.

The **polyurethane foam** mattress is an anti-decubitus system consisting of three elements in high-density 30 kg/m<sup>3</sup> self-extinguishing polyurethane foam.

Thanks to its particular structure, it creates an air **ventilation system** that significantly contributes to reducing the perspiration of the bedridden patient.

This mattress, thanks to its excellent air permeability, guarantees beneficial breathability for the patient's skin.

### Technical features:

- Material: Fireproof HR30 polyurethane foam
- Density 30/Kg m<sup>3</sup>
- Dimensions: cm 195x85x14h
