

Matte black painted stainless steel washbasin h509_157

Matte black stainless steel washbasin, pedal-activated, with accessible pedestal. Dimensions: W 45 x D 45 x H 85 cm.

The **H509_157 washbasin** is designed to meet the needs of professionals in the **Ho.Re.Ca., beauty centers, SPAs and designer kitchens** sectors, where hygiene, functionality and elegance are fundamental. It is made of **matte black painted stainless steel**, a material that guarantees **corrosion resistance**, ease of cleaning and a sophisticated aesthetic presence, ideal for environments where design is also important.

The **matte black painting**, in addition to offering a distinctive visual impact, requires only **gentle maintenance**: it is sufficient to use soft cloths and non-abrasive detergents to preserve its finish over time. The **integrated basin** has ergonomic dimensions of 370 x 340 x 150 mm, ideal for quick and efficient hand washing in professional environments.

Pedal activation reduces manual contact, improving hygiene and preventing cross-contamination, while the **flexible water connection** allows for use with hot and cold water, or only cold, thanks to the **included non-return valve**. The **narrow pedestal**, compared to the sink basin, allows for greater frontal accessibility and reduces the risk of tripping, making it a functional choice even for narrow spaces.

Installation is facilitated by a **curved rear finish** that adheres perfectly to the profile of sanitary walls, while the **removable front panel** allows easy access to plumbing connections after positioning.

Supplied **complete with spout, button and internal connections**, this washbasin is ready for immediate use.

Add the elegant and functional **H509_157 washbasin** to your facility now. Buy it now or request a personalized quote for bulk supplies!

- **Flexibility:** in water connections.
- **Accessibility:** optimized with slim pedestal.

FAQ:

1. **Is it compatible with systems that only provide cold water?**

Yes, the washbasin is compatible with hot and cold water, it can also be connected only to cold water or to a mixture regulated through the included non-return valve.

2. **What maintenance does the matte black paint require?**

It is recommended to use only soft cloths and non-abrasive detergents to avoid scratches or damage to the finish.

3. **Does the product arrive already assembled?**

It is delivered partially assembled, with all necessary components included. Installation is simple and intuitive.

4. **Is it suitable for HACCP-compliant environments?**

Yes, thanks to pedal activation and hygienic materials, it meets the requirements for HACCP-compliant environments.

5. **How do you connect it to the water system?**

Connection is facilitated by a removable front panel that allows convenient access to the internal fittings.

Mini buying guide:

When choosing a professional washbasin, first evaluate **the material**: stainless steel is the most resistant and hygienic. If you operate in environments exposed to the public or of a high aesthetic level, opt for **elegant finishes**, such as matte black.

Pedal activation is preferable in contexts where hygiene is a priority, while the **pedestal configuration** is ideal if you are looking for an independent station, easy to install.

Always check that all components are included and that the **dimensions** are suitable for the available space.
