

Mayo instrument table for hospital use h576_04

Instrument table for operating rooms with **18/10 AISI 304 Stainless steel** base and **chrome-plated steel pump**

Mayo Table used for operating rooms, with **single-movement pump** and **rotating instrument tray**. The instrument trolley has a **base** made of **18/10 AISI 304 stainless steel** and a **chrome-plated steel pump**. It is equipped with a solid **4-spoke base in rectangular section tubing**, removable worktop, without open corners, **elevation** system via **single-movement hydraulic pump**. The **Mayo Table** offers all the quality and safety standards required by such an environment: high degree of corrosion resistance, high degree of bacterial removal, excellent durability over time. The materials and the assembly system allow for disinfection inside washing tunnels.

Technical Features:

- Base material: Stainless Steel
- Chrome-plated steel pump
- 4 circular section spokes with safety tips
- 4 twin wheels Ø 75 mm, with thread guard, in non-marking polymer, 2 of which with brake and 2 antistatic.
- Deep-drawn worktop without open corners, with rounded perimeter.
- Tray degree of freedom: +180° / – 180°, operational safety degree + 90° / – 90°
- Rotation system equipped with safety lock
- Elevation system with hydraulic pump, single movement, sealed circuit, with foot pedal activation.
- Elevation range from 935 mm to 1,300 mm.
- Ergonomically positioned pedal located inside the structure.
- Maximum capacity 30 Kg, evenly distributed on the worktop.
- Useful support surface dimensions: L.650 x D. 530 x h.20 mm
- Overall dimensions: L.735 x D. 540 x h.935/1300 mm
