

Mayo instrument table for operating room h576_18

Mayo table in AISI 304 stainless steel with adjustable height and removable top. Ideal for surgery and veterinary medicine, 30 kg capacity, on wheels.

The **Mayo table** represents a fundamental logistical support for the surgical and outpatient environment, specifically designed for the organization and ready availability of surgical instruments. The structure, made entirely of **AISI 304 stainless steel**, ensures maximum resistance to corrosion and the frequent sanitization cycles required in the healthcare sector. Thanks to the **single-movement pump**, the work surface is easily adjustable in height, guaranteeing an ergonomic posture for the medical team, while the base equipped with antistatic wheels allows for quick and safe movement.

Technical features

- Material: 18/10 AISI 304 stainless steel
- Total dimensions: W 73.5 x D 54 x H 93.5/130 cm
- Worktop dimensions: W 65 x D 53 x h 2 cm
- Adjustment system: variable height via single-movement pump
- Mobility: 4 swivel castors (2 with brakes, 2 antistatic)
- Base configuration: Easy drain system to facilitate deep cleaning
- Load capacity: maximum 30 kg
- Top functionality: swivel and removable for decontamination operations
