

Mayo Table with steel base h576_50

Mayo table in AISI 304 stainless steel with hydraulic elevation and removable top for operating rooms. Dimensions 78x58 cm, capacity 30 kg.

The **Mayo instrument table** is a professional equipment designed specifically for use in the **operating room** and sterile environments. Made entirely of **18/10 AISI 304 stainless steel**, it guarantees the highest standards of hygiene thanks to its high resistance to corrosion and ease of bacterial removal. The structure rests on a solid three-spoke base, configured to offer stability and smooth mobility, including an antistatic wheel for the electrical safety of the surgical block.

The elevation system is managed by a **single-action hydraulic pump** with an ergonomically positioned pedal located inside the structure, allowing height adjustment without compromising the operator's ergonomics. The worktop is removable, deep-drawn and shaped with a radiused perimeter, eliminating open corners to prevent the accumulation of organic residues.

Technical features

- **Material:** High-resistance AISI 304 stainless steel
- **Base configuration:** 3-spoke base with safety tips
- **Wheel system:** 3 twin wheels Ø 75 mm (2 with brake, 1 antistatic)
- **Elevation:** Hydraulic pump with range from 910 mm to 1270 mm
- **Worktop:** Removable, deep-drawn and radiused, non-rotating
- **Maximum capacity:** 30 kg
- **Support surface dimensions:** W. 65 x D. 53 x h. 2 cm
- **Overall dimensions:** W. 78 x D. 58 x h. 127 cm
- **Identifying SKU:** {\$sku}
