

Medical record trolley for clinics h564_02

Ward round trolley with steel structure, 3 drawers and compartment for a maximum capacity of 20 charts. Dimensions: W67 x D63 x H107 cm.

Medical record trolley ideal for hospitals, nursing homes, care homes. With **scratch-resistant, stain-resistant and anti-corrosion painted steel structure** (thickness 10/10), fire-painted on epoxy primer and finished with acrylic and polyurethane enamels. Provided on the right side with a comfortable ergonomic and anti-trauma **push handle** in aluminum with plastic ends and at the base with **4 swivelling thermoformed wheels** in solid rubber, mounted on a Ø 125 mm bearing, of which **2 with brake**, complete with **4 non-marking PVC corner bumpers**. The **top is in fire-retardant plastic laminate** with rounded edges covered in non-marking rubber, consisting of 1 sliding lid on stainless steel telescopic guides, complete with recessed handle, thus serving as a sturdy support surface once opened. The container below has a **capacity for a maximum of 20 X-ray file folders** and is equipped with a **hanger** for hooking folders and a **locking system** to prevent them from overlapping. The front part is also equipped with **3 sliding painted steel drawers** on telescopic guides and fully extractable, with automatic return. The drawers are complete with an ergonomic and anti-trauma aluminum handle and end-stop locking device. The **color of the fronts is RAL 5015 blue**. **Centralized key lock**.
