

Medical step stool for clinics with 2 steps h709_21

Two-step medical stool in stainless steel (45x55x43 cm) with non-slip platforms, ideal for safe access to examination tables. The **h709_21 medical step stool** is an indispensable accessory for clinics, specialist offices, and healthcare facilities. Designed to facilitate patient access to examination tables, it addresses issues related to the height of non-adjustable work surfaces, ensuring safe ascent and descent. The structure is entirely made of **stainless steel tubing**, the material of choice in the medical field for its corrosion resistance and ease of sanitization.

Technical characteristics

- **Structure:** High-resistance stainless steel tubing
- **Configuration:** 2 steps with integrated platforms
- **Support surface:** Platforms with non-slip coating for maximum stability
- **Total dimensions:** W. 45 x D. 55 x H. 43 cm
- **Base:** Stabilizing feet to prevent structural slipping
