

Medical device trolley with 4 shelves h583_30

Medical trolley for electromedical devices, with 4 shelves 45 x 43 cm, double aluminum column and wheels Ø 80 mm. Dimensions: W 57 x D 50 x H 110 cm.

The **H583_30 medical device trolley** is designed to meet the logistical needs of **hospital departments, clinics, laboratories and medical practices**, offering a solid and practical solution for the positioning and movement of **healthcare instrumentation and medical devices**.

The **extruded aluminum double column structure** guarantees **mechanical resistance and lightness**, facilitating the daily transport of the trolley even in tight spaces. The **4 shelves of 45 x 43 cm** are equipped with **ABS corner bumper caps**, to protect the equipment and reduce impact damage, increasing safety during use.

The **tubular metal base**, also protected with **ABS bumper caps**, ensures **stability** and protection even during the most frequent movements.

The trolley is equipped with **4 wheels of Ø80 mm**, **2 of which with brakes**, which allow easy movement and **stable locking** when necessary.

Rely on the safety, functionality and maneuverability of the **H583_30 trolley** to best manage your medical equipment. Contact us for a personalized offer for your healthcare facility.

Technical features:

- **Structure:** extruded aluminum double column
- **Base:** tubular metal with ABS bumper caps
- **Shelves:** 4 shelves of 45 x 43 cm with ABS protective corners
- **Wheels:** 4 wheels Ø80 mm, 2 of which with brake
- **Height:** 110 cm
- **Width:** 57 cm
- **Depth:** 50 cm

User benefits:

- **Structure:** solid and light for healthcare environments.
- **Shelves:** protected with ABS corners for maximum safety.
- **4 shelves:** spacious for efficient organization of instruments and devices.
- **Wheels:** with brake for total stability during use.
- **Compact size:** ideal for small spaces.

FAQ:

1. Is the trolley suitable for transporting medical equipment?

Yes, the 4 shelves offer enough space and protection for medical devices.

2. **Are the wheels lockable?**

Yes, two wheels are equipped with brakes, ensuring stability when necessary.

3. **Is it impact resistant?**

Yes, thanks to the corner caps and ABS bumpers on shelves and base.

4. **What are the dimensions of the shelves?**

Each shelf measures 45 x 43 cm.

5. **Is it easy to maneuver?**

Yes, the 80 mm swivel wheels offer smooth movement even in tight spaces.

Mini buying guide:

To ensure orderly and efficient management of electromedical instruments, it is essential to choose a trolley with **multiple levels, impact protection, braking wheels** and a **resistant but light structure**.

The **H583_30** model is perfect for clinical environments where mobility and instrument protection are indispensable.

Electromedical trolley 4 shelves hospital, medical trolley on wheels with brake, clinic diagnostic instrument trolley, trolley with aluminum columns and bumpers, professional trolley for healthcare devices.
