

Medical dressing trolley for clinic h564_60

Hospital dressing trolley with 4 drawers. Dimensions: W85 x D60 x H106 cm.

Medical dressing trolley ideal for transporting medical instruments from one ward to another in hospitals, clinics and nursing homes. It consists of a structure with 4 painted steel uprights, left side and back wall in technopolymer and an upper worktop also in technopolymer, equipped with a perimeter edge for liquid containment. The materials used ensure **resistance, durability, safety and ease of cleaning**. The trolley is also equipped with **4 steel drawers**, removable, interchangeable, sliding and with **centralized key locking**. On the right side of the structure there is a practical ABS **push handle** to make transport easier and faster, while on the left side there is a **removable worktop** in technopolymer, with full extension. The base is equipped with **4 PVC corner bumpers** and **4 solid rubber wheels** 2 of which with brake.
