

Medical examination couch for doctor's office h564_56

Manually height-adjustable medical examination couch. Dimensions: W187 x D64.5 x H50/90 cm.

Examination couch ideal for hospitals, nursing homes and doctor's offices. Designed to ensure maximum comfort and safety for both patient and doctor. In fact, all movements are designed to avoid the crushing of limbs and fingers and all edges are rounded and anti-trauma. The structure is made of **painted steel** and is complete with a **polyurethane foam padded top** covered in imitation leather, **fireproof**, non-deformable and easy to clean. The **height of the couch can be adjusted** manually using a lever-operated hydraulic actuator. The base is equipped with **4 height-adjustable plastic feet**, which prevent marks and stains on the floor.

Technical features:

- Dimensions: W187 x D64.5 x H50/90 cm
- Structure material: metal
- Top material: polyurethane foam covered in imitation leather; fireproof class 1IM
- Height adjustable from 50 to 90 using a lever-operated hydraulic pump
