Medical examination couches with scale h634_14

Professional steel examination couch with integrated digital weighing system, gas-adjustable backrest and CPR release. Max capacity 200 kg.

This **medical examination couch with integrated weighing system** represents an advanced solution for clinics, hospitals and medical offices that need to monitor the patient's weight during diagnostic phases. The structure is designed to combine robustness and functionality: the fixed frame in **white painted steel** rests on adjustable feet to ensure stability on every surface, while the high-density foam sleeping surface ensures the necessary comfort. The **class 1IM eco-leather** upholstery is specifically treated to be antibacterial, antifungal and stain-resistant, facilitating professional sanitization operations.

Technical specifications

- **Total dimensions:** L 194.2 x W 68 x H 60.9 cm
- **Structure:** White painted steel with adjustable feet
- **Surface:** 2 sections in high-density expanded resin
- **Backrest adjustment:** From 0° to 70° via gas actuator
- **Safety:** Quick release device of the backrest for CPR maneuver
- **Upholstery:** Class 1IM eco-leather (antibacterial, antifungal, stain-resistant)
- **Maximum capacity:** 200 kg
- **Safe working load:** 235 kg
- **Power supply:** Multivoltage 100-240 Vac 50-60 Hz with Schuko cable
- **Electrical components:** Low voltage motors (24 V), max absorption 480 VA
- **Protection degree:** IPX4 insulation
- **Included accessories:** Integrated roll holder on the back of the backrest

Weighing system

- **Electronics:** Consolidated Italian production with stainless steel display box (IP44)
- **Minimum division:** 20 g (up to 60 kg), 50 g (up to 150 kg), 100 g (up to 200 kg)
- **LCD Display:** Dimensions 22 x 16 x h5 cm, backlit and powered at 7.5 Vdc
- **Display functions:** Weight display, tare (manual/automatic), clock, weight loss, countdown, patient descent alarms and maintenance alert
- **Load cells:** In stainless steel with 1000 kg capacity (overload up to 2000 kg)
- **Connectivity:** Standard RS232 or LAN 10/100 interface for hospital management software integration
- **Autonomy:** External rechargeable 6 V emergency battery (about 24 hours of autonomy) with anti-blackout function
- **User interface:** 25-key keyboard integrated into the display for weighing and movement management

Options on request

- Motorized backrest operable via push-button panel
- Integrated cable reel system
- Customized upholstery colors
