

Medical practice stool with backrest h448_84

Clinic stool with a load capacity of 150 kg and height-adjustable footrest ring. Height adjustable from 64 to 89 cm.

The **clinic stool** is an indispensable product to ensure doctors and healthcare workers have a **comfortable and correct seat** during examinations and laboratory analysis. The product consists of a **polypropylene backrest** upholstered and padded in **M2 fireproof eco-leather** and an **aluminum base with a diameter of 490 mm**. The stool is also equipped with a **height-adjustable footrest ring** and **5 swivel nylon wheels**. The comfortable seat is upholstered in **M2 fireproof synthetic leather with high-density 40 kg/m3 foam rubber interior**. It is possible to **adjust the height** of the stool from 62 to 87 cm thanks to a chrome-plated steel gas lever.
