

Medical record trolley h564_108

Ward round trolley complete with drawer and medical record compartment. Dimensions: 1000 x 650 x H.1200 mm.

The medical record trolley is an ideal product for hospitals and medical clinics and is an indispensable element for transporting the medical records of all patients during check-ups.

The product features a **structure made of painted steel**, 10/10 thickness, fire-painted on an epoxy base and finished with acrylic and polyurethane enamels, scratch-resistant, stain-resistant, anti-corrosion, washable and disinfectable. The painting process complies with UNI EN ISO 9001 standards.

The upper part is made of **fire-retardant plastic laminate** with rounded edges covered in anti-scuff rubber.

The front part consists of:

- a **painted steel drawer**, sliding on telescopic guides, full extension with automatic closing, complete with an ergonomic and anti-trauma aluminum handle and end-of-stroke locking stop
- **2 compartments complete** with 24 individually removable and adjustable plastic dividers, with dimensions 30x480x420 h mm (total capacity: 26 slots)

The compartments are closed by **2 painted steel hinged doors**, complete with 180° degree open-door lock and key locking.

Technical features:
