

Medical screen 4 panels in chromed steel and PVC h654_14

Hospital screen with 4 panels with chromed steel structure (200x163 cm) and white fireproof PVC curtain. Professional solution for privacy in healthcare environments, weight 12.5 kg.

The h654_14 hospital screen is a professional solution designed to guarantee **privacy** in medical and healthcare environments. It allows for the creation of private areas within examination rooms, wards, and common areas, offering the patient and staff a sense of discretion and operational comfort.

The structure is made of **22 mm chromed steel tubing**, a material characterized by **corrosion resistance**, **mechanical strength**, and **ease of cleaning**. The chromed finish gives a modern and hygienic appearance, in line with healthcare environment standards. The **white fireproof PVC curtain** is designed to offer protection, hygiene, and ease of maintenance, being resistant to disinfectants and perfect for intensive use in hospitals, outpatient clinics, nursing homes, and care facilities.

With a **4-panel** configuration (each 50 cm wide), the screen allows for the separation of larger spaces compared to 2 or 3-panel models. The **low weight of approximately 12.5 kg** ensures easy movement, while the **overall dimensions of W. 200 x h. 163 cm** ensure wide visual coverage.
