

Medical screen for clinics h930_03

Three-section hospital screen, washable cotton, 225x33x168 cm, for patient privacy in clinics and wards.

The hospital screen is a functional solution to ensure **patient privacy** during medical examinations, diagnostic procedures, or treatments in healthcare environments. The lightweight structure allows for rapid and flexible positioning within wards, outpatient clinics, and diagnostic centers, creating private spaces without resorting to fixed partitions.

Designed for high-traffic environments, the screen combines practicality of use and ease of maintenance, essential features in healthcare contexts where hygiene and cleanliness are a priority.

Technical features

- **Configuration:** three sections
- **Panel material:** washable cotton
- **Total length:** 225 cm
- **Depth:** 33 cm
- **Height:** 168 cm
