

Medical screen for doctors' offices h930_06

Three-section sanitary screen in washable cotton, 200x48x165 cm, ideal for clinics and medical offices.

The screen is a functional solution for medical and healthcare environments, designed to ensure **privacy and separation between patients** in clinics, hospitals, and doctors' offices. The three-section structure allows for flexible space configurations, adapting to any clinic or ward layout.

The **cotton panels** combine hygienic practicality and durability, maintaining a discrete and professional aesthetic that integrates seamlessly into contemporary healthcare contexts.

Technical features

- Three-section structure
- Total length: 200 cm
- Depth: 48 cm
- Height: 165 cm
- Washable cotton panels
