

Medical 2-step stool h559_22

Medical office step stool with 2 non-slip steps, gray painted metal structure, 150 kg capacity, dimensions 43×44×22-45 cm.

The step stool is specifically designed to facilitate access to examination tables in medical environments, solving the height problem and ensuring patient safety during ascent and descent. The compact and robust structure makes it ideal for medical offices, clinics, and surgeries where space is limited and frequency of use is high.
