

Medical stool for doctors' offices with wheels h930_85

Chrome medical stool with wheels and chrome footrest, gas height adjustment. Dimensions: Ø 62 x H from 62 to 88 cm.

The **medical stool for doctors' offices with wheels H930_85** is designed for professional use in **medical offices and clinics** where mobility, comfort, and a solid structure are needed. The **chrome structure**, higher than stools with plastic bases, offers a more "professional" and stable setup, ideal for daily operations in healthcare environments.

To improve ergonomics during prolonged use, the stool is equipped with a **comfortable chrome footrest**, while the **wheels** guarantee greater mobility between stations, instruments, and examination beds. The **gas mechanism** allows for simple height adjustment, with a range from **62 to 88 cm**, to adapt the seat to the operator's needs and the height of the work surface. The seat is upholstered in **faux leather**, available in a **wide range of colors**, for good comfort and easy integration with the office decor. The **allowed load is 120 kg**.

Make your workstation more efficient with an adjustable and mobile stool. Buy the **H930_85 stool** now or request a quote for multiple orders.

Technical features:

- **Structure:** chrome, higher than plastic base
- **Mobility:** wheels for greater movement
- **Footrest:** chrome

User benefits:

- **Adjustment:** quick height adjustment with gas mechanism (62–88 cm).
- **Movements:** smooth between stations thanks to wheels.
- **Greater:** operational comfort with chrome footrest.
- **Structure:** more solid with a chrome structure higher than plastic.
- **Customization:** aesthetics with faux leather seat in many colors.

FAQ:

1. **Is the stool height adjustable?**
Yes, via gas mechanism with height 62–88 cm.
2. **Is the stool equipped with wheels?**
Yes, it has wheels for greater mobility.

3. **Is there a footrest?**

Yes, it includes a chrome footrest.

4. **What is the maximum weight supported?**

The allowed load is 120 kg.

5. **What are the base and seat dimensions?**

Base Ø 62 cm and seat Ø 34 cm.

Mini buying guide:

To choose a stool suitable for a medical office, first evaluate the need for movement: if you often move between the exam table, trolley, and instruments, the **wheels** improve productivity. Then check the height range (**62–88 cm**) to ensure correct posture relative to the work surface; a **gas mechanism** makes adjustment fast and intuitive. Also consider comfort: a **chrome footrest** helps maintain a more stable position, especially when working at a high height. Finally, check the footprint and stability (base Ø **62 cm**) and choose the **faux leather** color based on the environment and your preferences.
