

## Medical stool saddle seat and backrest h904\_09

Medical stool with saddle seat and multi-position backrest. Height adjustable from 60 to 85 cm.

The **medical office stool** is an indispensable accessory for clinics, hospitals, and professional offices that require comfort and functionality for medical staff. This stool is designed with a **robust metal structure** and an **aluminum star base**, ensuring stability and durability over time. The **saddle seat** is designed to offer optimal ergonomic posture, reducing stress on the back during long work sessions. The **height adjustment**, ranging from a minimum of **60 cm to a maximum of 85 cm**, allows the stool to be adapted to different usage needs. The **multi-position backrest** adds further lumbar support, increasing comfort and the possibility of personalizing the seat according to individual preferences. Both the **seat** and the **backrest** are **padded with 4 cm thick semi-hard foam**, offering a perfect balance between softness and support. The fabric upholstery, **available in different colors**, not only contributes to the stool's aesthetics but is also practical and easy to clean, essential for maintaining high hygiene standards in healthcare environments. In summary, this stool combines ergonomic design, high-quality materials, and functionality, representing the ideal choice to ensure maximum comfort and support during daily medical activities.
