

Medical stool with foam seat h904_12

Medical stool for doctor's offices with injected foam seat. Dimensions: W. 50 x D. 50 x H. from 46 to 58 cm.

The **medical office and clinic stool** is an essential complement to ensure **comfort and functionality** in healthcare environments. Made with a robust **metal structure**, this stool offers optimal durability and stability. The **star base**, built in high-quality **aluminum**, ensures lightness and corrosion resistance, making it suitable for daily use in clinics and medical offices. The **seat, without a backrest** to facilitate movement and quick access to patients, is made of **black injected foam**. This material not only offers superior ergonomics and prolonged comfort, but is also easy to clean and maintain hygiene, a fundamental requirement in healthcare environments. The stool is designed to be **height adjustable**, allowing it to adapt to the different needs of healthcare operators. **Delivered disassembled**, the stool is easy to assemble following the instructions provided, guaranteeing easier transport.

Technical features:

- Dimensions: W. 50 x D. 50 x H. from 46 to 58 cm
- Height adjustable
