

## Medical stool with multifunction armrest h904\_20

Outpatient stool with multifunction armrest and aluminum base. W. 60 x D. 60 x h. from 65 to 85 cm.

The **outpatient stool** is an essential element for medical and professional environments, designed to guarantee **comfort and functionality** during use. Featuring a **robust aluminum base**, this stool offers excellent stability, fundamental for a safe and reliable work environment. The **metal frame** provides further resistance and durability, ensuring that the stool can withstand intense and frequent use. The **ergonomically tiltable saddle seat** is  **padded with a 4 cm thick semi-hard foam**, which offers a perfect balance between comfort and support, reducing fatigue during long work sessions. A further strength of this stool is the **multifunction armrest**, designed to offer additional support and versatility, adapting to various operational needs. Height **adjustment** allows for customizing the stool's ergonomics according to different user statures and preferences, further improving comfort and efficiency. **Delivered to be assembled**, the outpatient stool is easy to assemble, guaranteeing prompt operation and quick, uncomplicated configuration.
