

Medical stool with plastic base h930_81

Medical stool with plastic base, wheels and adjustable chrome footrest. Dimensions: Ø 60 x H from 62 to 80 cm.

The **medical stool with plastic base H930_81** is designed for daily use in **clinics and professional practices**, where a practical, stable and easy-to-move seat is needed. The structure is designed to ensure good solidity thanks to the **plastic base**, while the **wheels** increase mobility and make work between workstations and tools smoother, especially during repetitive activities.

To improve comfort during prolonged use, the stool is equipped with an adjustable **chrome footrest**, useful for adapting the operator's posture based on the height of the seat and the type of activity performed. The seat is upholstered in **imitation leather**, available in a **wide range of colors**, so you can coordinate the stool with the room's decor while maintaining a comfortable seat. The height is adjustable from **62 cm to 80 cm** and the **permitted load** reaches up to **120 kg**, for reliable use in professional contexts.

Choose a mobile and adjustable seat to work better in the clinic. Buy the **H930_81 stool** now or request a quote for multiple orders.

Technical characteristics:

- **Good:** stability of use with plastic base at Ø 60 cm.
- **Customization:** aesthetic with imitation leather seat available in many colors.

FAQ:

1. **Is the stool easy to move?**
Yes, it is equipped with wheels for greater mobility.
2. **What is the adjustable seat height?**
The height is adjustable from 62 cm to 80 cm.

3. **Can the footrest be adjusted?**

Yes, the chrome footrest is adjustable from 20 cm to 47 cm.

4. **What is the maximum supported load?**

The permitted load is 120 kg.

5. **Is the seat available in multiple colors?**

Yes, the imitation leather seat is available in a wide range of colors.

Mini buying guide:

To choose a clinic stool, first evaluate mobility: if you move often between the examination table, trolley and instruments, a model with **wheels** like H930_81 makes the work smoother. Then check the height range (**62–80 cm**) to ensure it fits the work surfaces and your operating habits. An often underestimated element is the footrest: if you work for many hours, an **adjustable footrest (20–47 cm)** helps find a more comfortable posture. Finally, consider stability and dimensions: a **Ø 60 cm base** offers wide support, while **imitation leather** in many colors allows the stool to be harmonized with the environment.
