

Medical stool with triangular seat h904_16

Medical stool with triangular seat and aluminum base. W. 50 x D. 50 x h. from 46 to 58 cm.

The **stool** designed for use in healthcare environments, such as medical offices, outpatient clinics, clinics, and hospitals, represents the perfect combination of **functionality, comfort, and modern design**. The **structure**, made of robust **metal**, guarantees stability and durability over time, while the **aluminum star base** provides lightness and resistance. The **seat** has an **innovative triangular shape**, designed to offer ergonomic support, and is padded with **5 cm thick semi-hard foam**, ensuring comfort even during long sessions of use. The **absence of a backrest** promotes greater freedom of movement, ideal for healthcare professionals who need to move frequently. One of the main features of this stool is the **adjustable height**, which varies **from 46 to 58 cm**, allowing it to be easily adapted to different needs and working heights. The adjustment mechanism is simple and intuitive, ensuring a quick and safe setting of the desired height. The **seat upholstery** is available in a **variety of colors**, allowing the stool to be adapted to the aesthetics of any medical environment. **Delivered disassembled**, the stool is easy to assemble, ensuring practicality and convenience from the first use. This stool represents an excellent choice for healthcare professionals looking for a reliable, comfortable product with a contemporary design, with the flexibility of adjustable height for optimal customization.
