Medical Thermal container 13 liters h18413

Medical Thermal container easy to clean thanks to rounded corners. Rugged and durable.

Thermal container for medical structure made of **polypropylene** foam gray color, both inside and outside, resistant to UV and impact.

The polypropylene is a plastic material very much appreciated as it is non-toxic, odorless, light, washable, sterilizable, resistant to heat, moisture, stains, solvents, acids and wear.

The **'insulation'** is polyurethane foam with high intensity (40 kg / m³) with a thickness of 35 mm. Sena CFCs and HCFCs.

Thanks to the high insulation coefficient, the container ensures high autonomy of temperature maintenance.

The container is easy to transport, thanks to the **adjustable shoulder strap**, while the cover is made with the same material and isolation of the body.

The lid is fitted with a rubber seal to guarantee a perfect seal and two hooks lever, made of plastic material of black color with elastic sealing.

Features:

- net capacity 13 liters
- Dimensions (WxDxH) 39x25x31 cm
- net weight of 2.8 kg

INFORMATION

- Height 31 cm
- Width 39 cm
- Depth 25 cm
- Capacity 13 lt
