

Medical trolley for electromedical devices with 5 shelves h583_28

Medical trolley with 5 shelves 60 x 43 cm, double aluminum column and Ø 80 mm wheels. Dimensions: W 68 x D 56 x H 142 cm.

The **H583_28 medical trolley for electromedical devices** is a professional support designed for the organization and transport of **medical devices, electromedical instrumentation, and healthcare materials**. Solid and maneuverable, it is suitable for use in **hospitals, clinics, laboratories, and specialized departments**, where order, accessibility, and mobility are essential.

The structure is composed of **2 extruded aluminum columns** that guarantee **strength and lightness**, supporting **5 large 60 x 43 cm shelves**, each equipped with **ABS corner bumper caps**, which protect against accidental impacts during handling or use in narrow environments.

The **tubular base** is also provided with **ABS bumper caps** and is designed to ensure **structural stability**, even at full load.

The **4 Ø80 mm wheels**, **2 of which with brakes**, allow **smooth movements and secure locking** during use. The trolley is ideal for transport between indoor environments and perfectly adapts to the typical surfaces of the healthcare environment.

Simplify the transport and organization of your equipment with the **H583_28 trolley**. Request a dedicated offer for hospital supplies now.

Technical features:

- **Structure:** double extruded aluminum column
- **Shelves:** 5 shelves of 60 x 43 cm with ABS corner bumpers
- **Base:** tubular with ABS bumper caps
- **Wheels:** 4 wheels Ø80 mm, 2 of which with brakes
- **Height:** 142 cm
- **Total width:** 68 cm
- **Total depth:** 56 cm

User benefits:

- **5 large shelves:** to accommodate electromedical instruments and devices.
- **Aluminum columns:** for a solid yet lightweight structure.
- **ABS corners:** for protection from impacts and safety in narrow spaces.
- **High mobility:** thanks to the swivel wheels.
- **Wheels with brake:** for greater stability during use.

FAQ:

1. **Is the trolley suitable for hospital environments?**

Yes, it is designed for healthcare environments with sanitizable materials and compact dimensions.

2. **How many shelves does it include?**

The trolley is equipped with 5 shelves of 60 x 43 cm.

3. **Can the wheels be locked?**

Yes, 2 of the 4 wheels are equipped with brakes.

4. **Are the shelves protected?**

Yes, each shelf has ABS corner bumper caps.

5. **Is the structure resistant and light?**

Yes, thanks to the extruded aluminum, it combines structural strength and ease of handling.

Mini buying guide:

For healthcare environments where it is necessary to transport **multiple devices or instruments**, a **5-shelf** trolley like the H583_28 represents an ideal solution.

Always check that the **structure is robust but light**, with **braking wheels** and **protected shelves**.

The trolley must offer **maximum stability** and **ease of maneuver**, qualities that the H583_28 guarantees thanks to high-end materials and a design studied for professional use.

5-shelf electromedical trolley, hospital medical trolley with brakes, trolley with extruded aluminum columns, professional medical instrument trolley, healthcare equipment trolley on wheels.
