

Medical trolley h930_56

Hospital dressing trolley, with 2 drawers and painted steel shelves. Dimensions: W 97 x D 54 x H 101 cm.

The **medical trolley H930_56** is a versatile and functional solution designed for **the organization and transport of medical supplies and equipment** in hospital wards, clinics and medical centers. Thanks to its solid structure and integrated features, it guarantees **efficiency, order and operational practicality** in the healthcare context.

The **structure is composed of particle board panels coated in PVC**, with **MDF fronts** and **scratch-resistant powder-coated steel shelves**, designed to last and resist wear and tear. The **upper drawers are equipped with a lock**, ensuring the safety of the medicines or devices contained. All drawers include **anti-slip mats**, for an orderly and safe organization of the contents.

The trolley is mounted on a **steel base with 10 cm professional wheels**, equipped with brakes for stable positioning. A **lateral guide system** allows for the installation of additional accessories or devices, further improving customization and functionality based on the needs of the department.

Order the **medical trolley H930_56** now: a reliable and safe solution for every hospital context. Contact us for multiple orders or customizations.
