

Medical trolley with 2 drawers h930_58

Medical trolley with 2 drawers, lock and steel shelves. Dimensions: W 97 x D 54 x H 101 cm.

The **h930_58 medical trolley** is a multifunctional trolley designed for use in **hospital wards, clinics and surgeries**, ideal for the transport and management of **medical equipment and consumables**. It offers a solid structure, quality components and a practical design that guarantees maximum efficiency and safety in the daily work of healthcare personnel.

The structure is composed of **PVC-coated particle board panels**, with resistant and easy-to-clean **MDF fronts**. The two **scratch-resistant powder-coated steel shelves** offer great resistance to wear. The **two drawers lined with non-slip mats**, one shallow and one deeper, allow you to organize instruments, medicines and medical devices in an orderly manner.

The upper drawer is **equipped with a lock**, to protect the contents from unauthorized access. The system is completed by a steel base equipped with **4 x 10 cm swivel wheels with brakes**, to ensure **smooth movement and safety during stationary phases**. The **four side rails** allow the integration of **optional accessories**, making the trolley customizable according to operational needs.
