

Medical trolley with 3 drawers h902_15

Stainless steel medical dressing trolley with 3 drawers, 1 shelf and 1 work surface. Dimensions: W. 620 x D. 500 x h. 900 mm.

The **medical dressing trolley** is an essential piece of equipment for transporting instruments and dressings intended for patient care in hospitals, emergency rooms, clinics and medical offices. Its solid structure is made entirely of **stainless steel**, ensuring durability and resistance to daily use. The **work surface**, also in **stainless steel**, is equipped with a **flange on three sides**, which helps to prevent the accidental falling of instruments and materials. The trolley is also equipped with a **practical lateral push handle**, which facilitates the movement of the trolley in various environments. Under the work surface, the trolley has a **smooth intermediate shelf** with an **anti-fall railing**. This additional shelf allows you to keep everything you need at hand. The trolley is equipped with **three compact ABS drawers**, each with **self-closing slides**, which guarantee a smooth and safe opening and closing. The **drawer fronts** are **epoxy powder coated**. **Four swiveling wheels** of diameter 100 mm, **2 of which with brake**, are present at the base. These wheels are designed to guarantee a smooth and stable movement, and are equipped with **bumpers** to protect the trolley and the surrounding environment from impacts and damage.

Technical features:

- Dimensions: W. 620 x D. 500 x h. 900 mm
- Structure made of stainless steel
- 18/8 stainless steel work surface with flange on 3 sides
- 3 compact ABS drawers with self-closing slides and epoxy powder-coated fronts
- Smooth intermediate shelf with anti-fall railing
- 4 swiveling wheels Ø 100 mm, 2 of which with brake, equipped with bumpers
- Wheels with galvanized sheet metal support. Polypropylene core and thermoplastic rubber tread
- Bumper material: rubber
- Nickel-plated lateral push handle 128 mm
