

Medication distribution trolleys h564_44

Anodized aluminum medication distribution trolley with 42 compartments. Dimensions: 880x620xh.1080 mm

Medication distribution trolley monocoque made entirely of **anodized aluminum**, thickness 10/10, baked painting on epoxy primer and finished with acrylic and polyurethane enamels, **scratch-resistant, stain-resistant, anti-corrosion**, washable and disinfectable. The painting process complies with UNI EN ISO 9001 standards. Prepared for the insertion of easily removable accessories. Body color RAL 7035 or RAL 9006. Back part and upper top made of injection-molded technopolymer. Worktop 850x600 mm with perimeter edge on 3 sides and integrated push handle on three sides of the trolley, with double front grip for easy maneuverability. **Self-supporting back wall** up to 100 kg load, made of technopolymer, with rounded edges and no sharp corners, side walls prepared for the insertion of numerous accessories. **Front part** composed of a compartment complete with frontally extractable additional worktop, in anodized aluminum, sliding on full-extension telescopic guides with soft closing, dim. 610x390 mm thermoformed side walls for ISO 600x400 accessories (drawers, shelves, baskets, trays etc.) closed by 2 doors made of technopolymer, complete with molded, ergonomic and anti-trauma handle. The doors are retractable into the structure and complete with centralized key lock. Available colors: cobalt blue and light gray. Standard equipment: **7 drawers** with rounded interior, molded in technopolymer, prepared for the insertion of blue plastic single-dose trays, complete with name tag label and adjustable dividers for unit dose therapy, each of which houses **small single-dose trays** (dim. 94x400x82h mm) arranged on 7 rows (6 small drawers per row), **total 42 trays**, **Right side wall**: universal accessory bar. **Left side wall**: universal accessory bar. Shaped base with perimeter bumper function, made of injection-molded technopolymer, **4 twin wheels**, pivoting in solid rubber, anti-thread, non-marking, mounted on **Ø 125 mm ball bearing**, **2 of which with brake**.

Technical features:

- Material: anodized aluminum
- N° 7 drawers
- Each drawer contains 6 single-dose trays dim. 94x400xh.82, arranged on 7 rows
- Total n° of plastic trays 42
- Dimensions: 880x620xh.1080 mm
- Frontally extractable additional worktop, in anodized aluminum, sliding on full-extension telescopic guides with soft closing, dim. 610x390 mm
- 2 doors retractable into the structure, made of technopolymer, complete with molded, ergonomic and anti-trauma handle
- Centralized key lock
- Molded technopolymer worktop 850x600 mm, scratch-resistant, washable and easily disinfectable. Complete with perimeter edge on three sides for liquid containment
- Integrated push handle on three sides of the trolley, with double front grip for easy maneuverability
- Universal accessory bar on both right and left
- Shaped base with perimeter bumper function, made of injection-molded technopolymer
- N° 4 twin wheels at Ø 125 mm, 2 of which with brake
