Medication safe h718_10

Double-walled steel safe for medicines and narcotics. 4 removable aluminum drawers, EN 1300 lock, 60x50x80 cm, 250 kg. EN 1143-1 certification.

Specialized safe for the **safe custody and storage of medicines and controlled substances** in healthcare and pharmaceutical environments. Designed for clinics, hospitals, pharmacies, and medical facilities requiring regulatory compliance and physical protection against theft.

The **double-walled steel** structure guarantees high structural resistance against break-in attempts and robberies, while the **EN 1300 certified key lock** ensures access control. The **4 internal aluminum drawers**, fully removable and equipped with modular dividers, allow for the rational organization of medicines by category, dosage, or intended use. The provision for floor anchoring, with the mounting kit included, permanently stabilizes the safe and further increases physical security.
