

Medication trolley with 4 drawers h930_60

Hospital trolley with 4 drawers, steel base and braking wheels. Dimensions: W 97 x D 54 x H 101 cm.

The **H930_60 medication trolley** is a multifunctional device designed to ensure **order, mobility and safety** in the daily activities of hospitals, clinics and healthcare facilities. Its configuration with **4 large-capacity drawers** and a **solid structure**, makes it particularly suitable for transporting and storing instruments, medical devices and dressing materials.

The **supporting structure is made of PVC-coated particleboard**, while the drawer fronts are made of **MDF also coated**, for a **hygienic and wear-resistant finish**. The **top tray in scratch-resistant epoxy powder-coated steel** offers a large support surface easy to clean, perfect for positioning equipment during procedures.

The trolley consists of **4 large-format drawers**, two with a height of 6.5 cm and two with a height of 12.5 cm, **internally lined with a non-slip mat** to keep objects stable even when moving. The **top drawer is equipped with a lock**, useful for protecting medications or confidential instruments.

Mounted on a **steel base with 4 10 cm wheels**, all with brakes, the H930_60 trolley is designed to **move with ease** in hospital corridors while ensuring **stability during use**. A further strong point is the presence of **four side rails** that allow for the addition of **optional accessories**, making the trolley **customizable according to operational needs**.

Choose efficiency and quality for your healthcare department. Purchase the **H930_60 trolley** or request a tailored offer for multiple purchases!

Technical features:

FAQ:

1. **What color are the drawers?**
The drawers are dyed blue.
2. **Are the drawers protected by a lock?**
The top drawer is equipped with a key lock, included in the supply.
3. **Can accessories be added to the trolley?**
Yes, thanks to the 4 side rails, it is possible to install numerous compatible accessories.
4. **Is the trolley suitable for high-intensity use environments?**
Absolutely yes, it is ideal for hospital departments, clinics and nursing homes thanks to its resistance and ease of use.
5. **What are the main materials of the trolley?**
The body is in PVC-coated particleboard, MDF fronts, and top tray in painted steel.

Mini buying guide:

Choosing a good medication trolley means ensuring safety, functionality and hygiene in the transport and management of healthcare materials.

Make sure the trolley is equipped with **appropriately sized drawers**, **security lock**, **stable structure** and **braking wheels** to facilitate mobility in corridors.

Check for the presence of **non-slip mats** in the drawers to prevent internal movement of instruments, and consider **accessory systems** as a key element for adapting the trolley to different operational needs.

Finally, prefer materials **easy to sanitize** and resistant to daily wear.
