

Medicine cabinet for medical practices h527_11

Medicine cabinet in melamine wood and aluminum, 2 lockable doors, 4 adjustable shelves, 930x600x1980 mm.

The medicine cabinet is a secure and organized storage solution for healthcare, pharmaceutical, hospital, and professional environments. Designed to ensure the correct storage of medications with controlled access, it combines structural robustness and internal functionality.

The structure is built with **melamine-faced particleboard panels**, a resistant and durable material, supported by **aluminum uprights** that ensure stability and lightness. The **2 swing doors** are equipped with **270° hinges**, allowing wide and practical opening. The **integrated lock** with **ABS** handles guarantees limited access and protection of the content.

The interior offers **4 adjustable shelves** that allow the space to be adapted to different types and sizes of medications. The base is equipped with **4 painted steel feet with adjustment**, ensuring stability on irregular floors and ease of positioning.
