

Medicine storage cabinet 56 compartments h823_04

Medicine cabinet in 10/10 steel, 56 compartments, sliding shutter, 8 fixed shelves + 1 telescopic. For hospitals and healthcare facilities.

Medicine cabinets represent an essential solution in technical outpatient furnishings, ensuring methodical organization and efficient management of spaces intended for medicine supply. This model is specifically designed for healthcare facilities requiring significant storage capacity and controlled access to medicines.

The cabinet is made of **10/10 steel with anti-corrosion epoxy resin treatment**, a solution that ensures prolonged durability and resistance to humid environments typical of healthcare facilities. The **PVC sliding shutter closure with aluminum terminal blade** allows rapid access while maintaining content protection, while the **code lock** ensures access control to medicines.

With **56 white drawers** 150 mm high, each equipped with label holder and label protection, the cabinet allows for precise cataloging and immediate traceability. The configuration includes **8 fixed shelves and 1 telescopic shelf**, offering flexibility in organization based on container sizes.
