

## Meeting table h908\_106

Multipurpose table with folding and stackable top, metal structure with wheels. Dimensions: W 120 x D 80 x H 75 cm.

The **meeting table with folding and stackable top h908\_106** represents an innovative solution for professional environments where flexibility and space optimization are essential. Designed to meet the needs of **meeting rooms, offices, auditoriums** and other multifunctional areas, this table is equipped with a **folding top** measuring 120 x 80 cm that offers ample workspace for meetings, conferences and collaborative activities.

The **painted metal structure** provides a combination of **sturdiness** and **elegance**, ensuring long-term durability and resistance to wear. The **four lockable wheels** allow for easy movement of the table and quick reconfiguration of the space, making it perfect for rooms that require a flexible and dynamic layout.

The **inclined closure** allows the tables to be stored compactly, stacking them horizontally to maximize space when not in use. This feature makes them ideal for environments where space is valuable and the ability to quickly store equipment is an advantage.

Don't miss the opportunity to make your workspaces more functional and efficient. Buy the **meeting table with folding top h908\_106** now and experience the versatility and practicality that improve productivity and organization.

### Technical features:

- **Top:** folding, dimensions 120 x 80 cm.
- **Structure:** High-quality painted metal.
- **Height:** 75 cm.
- **Closure:** Inclined and folding for space-saving.
- **Mobility:** Four lockable wheels for easy movement and stability.
- **Stackability:** Horizontal for optimal use of space.

### User benefits:

- **Space optimization** thanks to the folding closure.
- **Ease of movement** for quick room reconfigurations.
- **Flexibility** for environments requiring multifunctional furniture.
- **Durability and resistance** with a high-quality metal structure.
- **Professional design** that fits any furnishing style.

### FAQ:

1. **Is the table difficult to close?**  
No, the table has a simple and intuitive closing mechanism that allows the top to be folded without effort.
2. **Are the wheels lockable to ensure stability?**  
Yes, the wheels are equipped with a practical locking system that ensures stability when the table is in use.
3. **Can it be used daily?**  
Yes, the solid structure and robust top are designed to withstand daily use in professional environments.
4. **How much space does the table take up when closed?**  
When folded, the table takes up little space thanks to the inclined closure, making it easy to store and stack.

### Mini buying guide:

When choosing a **meeting table**, it is important to evaluate both the **size of the available space** and the frequency with which you intend to move or store it. A model with a **folding top** is particularly suitable for those looking for dynamic space use and a

versatile configuration. Ensure that the structure is made of high-quality materials to guarantee **durability** and **stability**. Opting for models with **lockable wheels** allows you to make the most of **mobility**, without sacrificing safety during use.
