

Melamine desk for kindergarten height 460 mm h979_14

Kindergarten desk with melamine top and metal structure. Height: 460 mm. Size: 1. Dimensions: W 780 x D 820 x H 460 mm.

The **melamine desk for kindergarten h979_14** is designed to offer **safety, resistance, and comfort** in school settings. Thanks to the combination of **high-quality materials** and its solid structure, it is perfect for **nurseries, kindergartens, and educational environments**, ensuring stability and durability over time.

The **table top** is made of **19 mm melamine**, with **2 mm ABS edges** and glued with **PUR glue**, which offers **resistance to scratches, moisture, and impacts**. The panel is composed of **three-layer chipboard**, pressed at high temperature and coated with **melamine-impregnated decorative paper**, making the surface **smooth, safe, and easy to clean**.

The **reinforced steel structure** is made with **tubular legs Ø35 mm** and a thickness of **1.5 mm**, fixed to the top with a **6 mm welded steel sheet**, to ensure **solidity and resistance to intensive use**.

For greater stability, each leg is equipped with **leveling glides**, which allow the **desk to be adapted to uneven floors**, reducing the risk of wobbling.

The structure is finished with **electrostatic epoxy-polyester powder coating**, treated with **anti-corrosion nanoceramics and passivation**, which improve **corrosion resistance and paint adhesion by 300%** compared to standard treatments.

The desk is **supplied disassembled**, with a **quick and safe assembly system using M6 screws included in the delivery**. Furthermore, it is certified according to **ISO 9001, 14001, and 14006** standards, guaranteeing the quality and safety of materials.

Perfect for educational activities! Buy the h979_14 desk now or request a personalized quote.

Technical features:

- **Structure:** Steel with anti-corrosion epoxy coating
- **Table top:** 19 mm melamine with 2 mm ABS edges
- **Dimensions:** W 780 x D 820 x H 460 mm
- **Size:** 1
