

Metal bench for public spaces h140_566

150 cm steel urban bench with two-tone RAL 7016/7001 design. 3-seater structure with integrated armrests, ergonomic backrest, and stainless steel hardware.

The **metal bench for public spaces h140_566** is an outdoor seat with a contemporary design, engineered to offer maximum durability and a distinctive aesthetic. Made entirely of high-quality steel, this bench solves the maintenance problem in urban contexts thanks to the use of galvanized square profiles and thermosetting powder treatments. The structure is characterized by an elegant two-tone configuration: the lateral supports, equipped with integrated armrests, are finished in **RAL 7016 (anthracite grey)**, while the seat and backrest are painted in **RAL 7001 (silver grey)**. The backrest features an ergonomic inclination of 100°, designed to guarantee comfortable upper body support during breaks in parks and collective areas.

Technical characteristics

- **Dimensions:** 150 x 60 x 84h cm
- **Seat height:** 44 cm
- **Supporting structure:** 2 supports in flat iron section 80x6 mm with armrests
- **Seat material:** Galvanized steel square profiles section 20x20 mm on a dedicated frame
- **Backrest material:** Galvanized steel square profiles section 20x20 mm
- **Backrest inclination:** 100° (optimal ergonomics)
- **Treatment:** Galvanization and thermosetting powder coating
- **Two-tone finish:** Supports RAL 7016 | Seat and backrest RAL 7001
- **Fixing:** Holes at the base of the supports for ground anchoring
- **Components:** Stainless steel hardware included in the assembly kit
