

Metal bench for public spaces h287_204

Urban furniture metal bench. Available in various colors. Dimensions: W.200 x 42 x H.56 cm.

The metal bench is the ideal product for offering comfortable seating in urban areas and public places such as parks, avenues, and public gardens. The **solid structure** of the bench is made of round tube with a diameter of 60 mm bent into an **inverted "U"** shape, while the seat is made with **steel** tubular slats. The **sturdiness** of the product is accompanied at the same time by a **sober style** that is easily adaptable to the surrounding landscape.

The material used is meticulously treated through **high-quality** technologies that guarantee its quality over time and above all **compliance with current regulations** thanks to the use of **non-toxic** substances.

Technical characteristics:

- Steel structure with seat made of oval steel tubular slats section 40x20 mm
