

Metal cabinet with 2 sound-absorbing doors h1033_11

Low metal cabinet in 8/10 steel, 90x45x90 cm, with sound-absorbing doors for acoustic comfort optimization in offices and open spaces.

The **metal cabinet h1033_11** is a professional storage system designed for work contexts that require rigorous organization combined with advanced acoustic performance. The structure, characterized by a minimal design and thin lines, is designed to integrate into executive offices and corporate environments where space management must coincide with the reduction of noise pollution. Security is guaranteed by a self-supporting shell and certified closing systems, making it suitable for storing sensitive documentation.

Technical specifications

- **Dimensions:** W 90 x D 45 x H 90 cm
- **Structure material:** First choice 8/10 steel sheet DC01 – UNI EN 10130
- **Configuration:** Press-bent self-supporting modular structure
- **Passive safety:** Rounded outer edges with a 2 mm radius of curvature
- **Doors:** Two hinged metal doors with sound-absorbing properties
- **Opening mechanism:** Hinges with 110° opening
- **Closing system:** Mechanical bolt lock with rotating rods and numbered removable cylinder
- **Key set:** Double folding key with accident-prevention profile
- **Internal shelves:** Made of 8/10 DC01 steel sheet with rounded edges
- **Stability:** 4 adjustable leveling feet for uneven surfaces
- **Surface treatment:** Epoxy-polyester electrostatic powder coating after phospho-degreasing
- **Customization:** Available in various color finishing options
