

Metal cabinet with glass doors h283_60

Metal document display cabinet with sliding doors. Dimensions: W.150xD.45xH.200 cm

Metal display cabinet for filing and office with **tempered glass sliding doors**. The supporting structure is made of first-choice press-bent and adequately reinforced **sheet steel**, thickness 8/10. The **scratch-resistant epoxy powder coating** is carried out after a micro-phosphating process with passivating neutralization. Drying takes place in a heat-progression thermal tunnel (180°C) at a controlled temperature. **Tempered glass sliding doors**, 4 mm thick, framed on all 4 sides with 8/10 mm sheet metal frames. The doors slide in the top tracks using galvanized brackets with nylon-coated ball bearings. **Recessed plastic handles**. **Stop buffer** that prevents the doors from overlapping. Material supplied disassembled.

Technical features:

- Material: press-bent sheet steel
- Epoxy powder coating
- 2 transparent tempered glass sliding doors
- 4 adjustable internal shelves
- Cylinder lock with key supplied
- Dimensions: W.150xD.45xH.200 cm
