

Metal cabinet with sliding doors 5 shelves h789_32

Metal cabinet with solid sliding doors. High-thickness steel sheet structure with 5 internal shelves for hanging folders. Dimensions: W 120 x D 45 x H 250 cm.

The **metal cabinet with sliding doors h789_32** is a professional vertical storage system, designed to make the most of room heights while ensuring excellent storage capacity in a small footprint. Made with **first-choice cold-rolled steel sheets** and treated with epoxy powder coating polymerized at 180°C, this piece of furniture ensures structural stability and high resistance to daily wear and tear. The system of **solid sliding steel doors** solves the problem of maneuvering space in narrow passages or corridors, eliminating the frontal opening footprint. Designed for a corporate target and executive offices, the cabinet includes 5 adjustable internal shelves and is natively designed for the organization of hanging folders.

Technical features

- **Overall dimensions:** cm 120 x 45 x 250 h
- **Internal configuration:** n. 5 metal shelves included
- **Door type:** solid sliding doors in 0.8 mm thick steel sheet with dedicated internal reinforcements, equipped with recessed plastic handles and an expansion lock
- **Sliding mechanism:** nylon-coated ball bearings fixed to the doors by 2 mm pressed steel supports, with bottom guides made directly from the base bending and an upper internal guide in the top
- **Structure sheet thickness:** 0.8 mm for sides, base, top, and back panels (consisting of two elements bent on all sides for interlocking insertion)
- **Joining reinforcements:** end heads for sides and base in 1.2 mm sheet with hooks obtained from the heads themselves; top fixing via M8 galvanized bolts
- **Shelf sheet thickness:** 0.7 mm (inserted via hooks stamped in 1.5 mm sheet into the side slots)
- **Shelf adjustment:** slots with 60 mm center distance along the entire height of the sides
- **Colors:** available in different colors
- **Shelf setup:** optimized for housing vertical reading hanging folders with 330 mm center distance
- **Surface treatments:** degreasing, washing, passivation in a continuous hot tunnel, and epoxy powder coating
- **Logistics data:** weight 86 kg, volume 0.55 m3, n. 4 total packages
