

Metal cabinet with sliding doors h283_57

Metal cabinet with assemblable sliding doors. Dimensions: W.120xD.45xH.200 cm

Storage and office cabinet with sliding doors. Supporting structure made of **first-choice press-bent** and **adequately reinforced** 8/10 thick sheet steel. The scratch-resistant epoxy powder coating is carried out after a micro-phosphating process with passivating neutralization. Drying takes place in a heat progression thermal tunnel (180°C) and at a controlled temperature. **Sliding doors** in sheet steel reinforced at the top. The doors slide in the top tracks by means of galvanized brackets with nylon-coated ball bearings. **Recessed plastic handles. Stop buffer** which prevents the doors from overlapping. **Material supplied disassembled.**

Technical features:

- Material: press-bent sheet steel
- Epoxy powder coating
- No. 2 sliding doors
- No. 5 adjustable internal shelves
- Cylinder lock with key supplied
- Dimensions: W.120xD.45xH.250 cm
- Grey color RAL 7035
- Supplied disassembled
