

## Metal cabinet with sliding doors W.1500 h283\_82

Metal office cabinet in reinforced steel, 150x60x200h cm. Space-saving sliding doors and 4 adjustable shelves for professional archiving.

The **metal office cabinet** with sliding doors represents the ideal technical solution for the rational organization of archives and documents in professional contexts. The structure is made of **press-bent steel sheet** with a thickness of 8/10, ensuring superior structural solidity and prolonged resistance to mechanical stress. Thanks to the **sliding door** system, the cabinet allows full access to the content even in environments characterized by limited floor areas or narrow corridors, eliminating the bulk of hinged doors.

## Technical features

- **Dimensions:** 150 x 60 x 200 h cm
- **Weight:** 118 kg
- **Structure:** press-bent steel sheet thickness 8/10
- **Body and door color:** Grey RAL 7035
- **Doors:** sliding steel with upper reinforcement
- **Internal shelves:** 4 adjustable shelves on racks, with integrated setup for hanging folders
- **Locking systems:** cylinder lock with double key provided
- **Door sliding:** guides with galvanized brackets and nylon-coated ball bearings for smooth movement
- **Painting:** scratch-resistant epoxy powders with anti-corrosion treatment
- **Supply:** supplied disassembled, packed in specific cardboard packages for maximum protection during transport
