

Metal cabinet with sliding glass doors h789_31

Metal cabinet with tempered glass sliding doors. High-thickness steel sheet structure with 5+5 internal shelves. Dimensions: L 180 x P 60 x H 250 cm.

The **metal cabinet with sliding glass doors h789_31** is a professional large-scale storage system (height 250 cm), designed to offer maximum visibility and impeccable organization of documents in offices, archives, and industrial environments. Made with **top-quality cold-rolled steel sheets** and protected by an epoxy powder coating polymerized at 180°C, this unit combines extreme robustness with a modern aesthetic. The presence of **4 mm tempered glass sliding doors** solves the problem of front clearance in passages and allows visual consultation of the contents without having to open the cabinet. Developed for a demanding corporate target, the cabinet offers an advanced internal configuration with 5+5 shelves designed for heavy loads and hanging folders.

Technical features

- **Overall dimensions:** cm 180 x 60 x 250 h
- **Internal configuration:** n. 5+5 metal shelves included
- **Door type:** sliding with perimeter frame in sheet metal (thickness 0.8 mm, visible edge 60 mm) assembled with spot welding
- **Glass specifications:** 4 mm thick transparent tempered glass integrated into the frame
- **Sliding:** lower guides obtained directly from the folding of the base and upper internal guide in the top for attaching the doors
- **Structure sheet thickness:** 0.8 mm for sides, base, top, back panels, and central partition
